

AMONG THE WHOLESALERS.

Houston Business Men Report Satisfactory Trade Conditions. Reasonable Goods are in Demand.

Office of the Post, Houston, Saturday, April 3. Wholesalers report a steady advance for the first three months of the year and are counting upon a fair trade for the remainder of the spring, though the summer months promise very little activity. Quite a number of country buyers were in the city the past week and numerous mail orders were received. The upward tendency of many staples has caused an active inquiry for these goods, and Houston jobbers have sent out orders after orders this week.

These quotations are revised daily and their correctness can be relied upon. The supply is being pulled in the Houston Wholesale Markets. AXLES—Graham—Diamond, \$4.75 per gross; Standard, \$4.50 per gross; Golden, \$4.25 per gross; Axline, 1 lb. tin, \$1.00 per gross.

Chicago, April 3.—Wheat opened strong today and continued so for nearly two hours. It turned suddenly and radically weak, closing with a loss after an early gain of 3/8c. The weakness was caused by the Modern Miller's crop estimate and was somewhat remarkable in view of the fact that only a few days ago the crop was estimated at a much larger figure by Thomson.

MONETARY AND INVESTMENTS. Market Yesterday Closed Firm With Slight Net Losses. PASSING OF A PANIC DURING WEEK.

New York, April 3.—There was little interest in today's session of the stock exchange, beyond the movement to cover over Sunday at the close, which was especially marked in the coalers, indicating the large short selling during the week in those stocks in the course of the raids by the bears to break the market. The opening was weak, in response to the declines in American securities on the London exchange.

COTTON MARKET REVIEW. Unusual Activity and an Advance in All Markets. FUTURES EIGHT TO NINE POINTS UP.

Spot Prices Advanced One-tenth—Shorts Were Scared—A Bullish Letter From McElroy. Office of the Post, Houston, Saturday, April 3. Cotton showed unusual activity today, and surprised traders by an advance of 8 to 9 points. Spots were 1-16 higher in nearly all American markets, with the tone very steady. The quick change from the dullness and indifference that has hung over the market for several days was quite marked, and fluctuations were more rapid and sales on a larger scale than for some time past. Although this was a half-holiday, more business was done during the short session than during any day last week.

Write for our Pamphlet, explaining our System, mailed free on application. SAM KELLER & CO. BANKERS AND BROKERS. Established 1887. 44 Broadway, New York.

caused an advance of 2 1/2 points on the first call in the cotton exchange this morning, with a further advance of 2 1/2 points on active covering by local shorts, stimulated by unexpected favorable cable and activity on the part of American spinners. A Greek house sold 1500 bales in New York, with a further advance of 2 1/2 points. A considerable advance on yesterday's quotations. There were untraced rumors of other large sales. Investment buying of a feature. The market is steady at a net advance of 5 1/2 points.
